

Francesco Pedraglio

ApparecchiareSparecchiare (una battaglia)

Turin - On Tuesday July 25, at 7:30 pm, at the Tram Diogene will be a new meeting of the *Collecting People* series, aimed at sharing and disseminating knowledge and through which Diogene Project opens up to meetings and extemporary interventions, sometimes seizing the opportunity of dropping in town of an artist or any other high profile cultural figure ready to share their own work.

At the conclusion of his residency at P/////AKT (Amsterdam) as a part of the *DrawnOnward* exchange program, **Francesco Pedraglio** presents *ApparecchiareSparecchiare (una battaglia)* – Setting-And-Clearing-The-Table (a battle) – an event that combines texts and ideas he has been exploring during the past months, readapting them to the peculiar environment of a dinner in a trattoria.

Collecting People has been made possible thanks to the Compagnia di San Paolo, and the collaboration GTT – Turin Transport Group, and the City of Turin.
